

COURSE NUMBER

FHWA-NHI-142074

COURSE TITLE

Fundamentals of Environmental Justice

Please note, FHWA is developing a new advanced level 2-day Instructor-led Training for Environmental Justice Analysis. We anticipate this new course will be available by Fall 2018, and our existing instructor-led NHI 142042 Environmental Justice course will no longer be offered at that time. Following delivery of the Environmental Justice Analysis course, NHI course 142074, Fundamentals of Environmental Justice web-based training, will be offered in lieu of NHI 142042.

Fundamentals of Environmental Justice (WBT) explains how environmental justice, or EJ, applies to each stage of transportation decision making. The US Department of Transportation, or US DOT, and its partners are committed to integrating the principles of EJ and nondiscrimination into all Federal programs and activities. In this course, participants are presented with a variety of strategies and resources for considering EJ throughout the transportation decision-making process.

OUTCOMES

Upon completion of the course, participants will be able to:

- Describe the background of EJ as related to transportation and decision making.
- Identify definitions, principles, and benefits related to EJ.
- Describe the importance of public involvement in the transportation decision-making process.
- Describe EJ considerations in the transportation planning process.
- Describe EJ considerations in environmental review and design.
- Describe EJ considerations related to the right of way phase of transportation decision making.
- Identify EJ considerations during construction, operations, and maintenance.

TARGET AUDIENCE

The target audience consists of transportation practitioners (entry-level to senior-level) employed at a range of organizations, including State Departments of Transportation, Metropolitan Planning Organizations, local transportation agencies, and consulting firms. The typical learner may hold the following professional roles: data analyst, planner, project-development specialist, environmental specialist, civil rights specialist, consultant, or any other job function that may require knowledge of environmental justice and transportation. Also, those who interact with minority and/or low-income communities; provide community services; and elected officials and their representatives may benefit from this course.

TRAINING LEVEL: Basic

FEE: 2018: \$0 Per Person; 2019: \$0 Per Person

LENGTH: 5 HOURS (CEU: .5 UNITS)

CLASS SIZE: MINIMUM: 0; MAXIMUM: 0
