LEARNING IN PROGRESS
November 2017

U.S. Secretary of Transportation Elaine L. Chao signed a proclamation for the National Traffic Incident Response Awareness Week honoring first responders. Photo courtesy of the Federal Highway Administration.

COURSE SPOTLIGHT

This week, November 13 - 17, is National Traffic Incident Response Awareness Week and the Federal Highway Administration (FHWA) just graduated its 300,000th first responder!

Traffic incidents cost us valuable time lost from our daily lives and work, as well as compromise our safety. That’s why it’s important to understand how traffic incident management (TIM) can make travel more reliable.

When an anything occurs that affects our roadways, TIM:

- Saves lives, time, and money
- Smooths commutes
- Helps make our environment happier and air cleaner
NHI is proud to have supported FHWA with the development and delivery of our [National TIM Responder Training](#).

**JUST LAUNCHED**

NHI relies on local agencies to hold Instructor-led Trainings throughout the country. The following training just launched this month. Bring this training directly to your organization, by hosting a session.

- [Soil Nail Walls](#) (ILT): This training teaches civil engineers to utilize design tools and construction methods for the safe and cost effective design of soil nail walls.

   ![Host a Training Button](#)

You can also sign up for alerts when new sessions are scheduled by visiting the course description page.
