Course Spotlight: FHWA Planning and Research Grants

The requirements around the administration of FHWA planning and research grants have changed. To help familiarize transportation professionals with these changes, NHI has updated its Web-based Training (WBT) series on FHWA Planning and Research Grants. The refreshed three-part series provides a comprehensive overview of the management of FHWA planning
and research grants using an interactive and engaging online format. It also takes a deep dive into 23 CFR Part 420 and 2 CFR Part 200, which applies government-wide.

A must-take for planning, engineering, and fiscal staff—this training series is highly recommended for FHWA, FTA, State Departments of Transportation (DOTs), Metropolitan Planning Organization (MPOs), and other agency staff that expend or administer Federal-aid funds.

**Asset Management**

Financial Planning for Transportation Asset Management
Introduction to Transportation Asset Management with Workshop
Developing a Transportation Asset Management Plan
Business, Public Admin, and Quality

Conducting Effective Program Reviews

Design and Traffic Operations

Access Management: Fundamental Principles and Application
Access Management: Fundamental Principles, Application, and Computation

Environment

Fundamentals of Environmental Justice

Geotechnical

Soil Nail Walls

Highway Safety

Developing Quality Crash Modification Factors

Hydraulics

SRH-2D Model Data files, Diagnostics & Verifying 2D Model Results
Model Terrain Development with Various Data Sources

Structures

Strut-and-Tie Modeling (STM) for Concrete Structures
Safety Inspection of In-Service Bridges for Professional Engineers
Tunnel Safety Inspection Refresher Prerequisite
Fundamentals of Bridge Maintenance

Transportation Performance Management

Transportation Performance Management for Pavements
The Role of Data in Transportation Performance Management

Transportation Planning
