Preparing Roadways for Winter Weather

Winter is approaching! NHI offers an important, no-cost Web-based training (WBT) module that focuses on storm event management. Participants in NHI 134109H Weather-related Operations consider a variety of factors to help them successfully plan and respond to severe weather effects on roadways and facilities. Although the course emphasizes practices applied to snow and ice storms, much of the course content applies to other weather events, such as hurricanes, tornados, and flooding.

The NHI 134109 Maintenance Training Series features 11 no-cost WBT modules related to roadway maintenance, such as Pavement Preservation Program, Shaping and Shoulders, and Roadway Drainage. To view all of the courses in the 134109 Maintenance Training Series, visit the NHI Web site.

Course Spotlight: 141047 Local Public Agency Real Estate Acquisition

141047 Local Public Agency Real Estate Acquisition training is designed for those who are unfamiliar with Federal requirements when acquiring real property for Federally-assisted transportation projects. This training provides participants with a working knowledge of these Federal requirements when acquiring real
Comprised of seven distinct learning modules, this self-paced Web-based training (WBT) provides an overview on real estate acquisition authority and the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Uniform Act) and related regulations. Additional modules include project development and administrative matters; valuation; acquisition and negotiation; relocation; and property management. This training also includes case studies, important resources, and suggestions for other companion courses.

Failure to comply with the Uniform Act when acquiring real property for a Federally-funded transportation project can put this funding at risk and may lead to project delays.
